

Computer & Satellite Installation - Professional Audio Video Solutions Dish Network Satellite Television

DISH Network satellite TV delivers hundreds of channels directly into your home: a wide selection of movies, news, sports and International entertainment to satisfy any household and meet any budget. All our entertainment comes to you in 100% digital clarity. This means that the picture you see is digitally encoded and arrives on your screen in exactly the manner the programmer intended. Basic cable service uses less advanced analog technology prone to distort the picture with shadowing, fuzziness and static. Many cable companies don't tell you that even when you upgrade to digital cable, often only a portion of the channels offered are digital: the rest remain analog.

Along with a superior picture, DISH Network satellite TV offers you many other technological advances. You get cost-effective opportunities to upgrade to high definition TV and DVRs (Digital Video Recorders). High definition delivers the sharpest, clearest TV picture available today. And DVR gives you unprecedented control over your TV viewing by letting you pause live TV, record without videotape, create replays and slow motion effects, and instantly skip recorded commercials.

CONTRACT: 24 month contract.

RECEIVERS: Up to 4 receivers with free installation (equipment must be returned if service is cancelled)

MONTHLY SERVICE: Starts at **\$32.99 dills/month** plus **\$4.99 dills/month** for each extra receiver. Los Angeles, El Centro or Yuma networks can be included (ABC,CBS,NBC,FOX,WB,UPN) for an additional **\$5.99 dills/month** if your address is in one of those cities.
